

Coaching Guidelines

Midget

As an organization we want to see fair play and equal ice time for all players during a large part of the year. We understand that because this a Provincial championship year there will be times that some players will play more.

Using the guidelines provided we know both things can be accomplished.

September, October, November

Winning is a by product of development, our players will receive equitable ice time.

All players will play in all situations and throughout the game. Every player will taught the skills necessary to play, Regular shift, Power Play, Penalty Kill, and last minutes of a close game.

December, January, February

All players will play in all situations and throughout the game. Every player will continue to develop the skills necessary to play, Regular shift, Power Play, Penalty Kill, and last minutes of a close game. Starting at or around December 15th coaches will pick Power Play units and Penalty Kill units using as many different players as possible.

No player to play the whole PP or PK.

No player to play PP and PK in the same game every game.

Marlies Tournament

All Tournaments after Christmas

Play-Offs

As much as possible all players are to play in all situations but the coach will be allowed to use bench management as he sees fit to help his team win as many games as possible, thus getting extra games and ice time for everybody.

Goalies will rotate as the coach decides so that each goalie would play an equal amount of games.

Discipline as it relates to ice time will be handled by the coach as he sees fit but is to be progressive.
